OBJECTIVE

- Highly motivated computer science graduate with a passion for web development and a strong desire to continuously learn and master new technologies. I am eager to contribute to a dynamic team and apply my knowledge of HTML, CSS, and JavaScript to create interactive and user-friendly websites. I have a proven ability to work collaboratively, solve complex problems, and deliver high-quality results within deadlines. I am seeking an opportunity to leverage my skills and enthusiasm to contribute to innovative web development projects and further enhance my expertise in front-end technologies.

TECHNOLOGIES

- **Languages:** JavaScript
- **Other:** HTML, CSS, Git, Figma, Github

Skills

- Problem solving, web development, continuous learning, communication and collaboration, attention to detail.

EXPERIENCE

On-the-job training

Feb 2022 – April 2022

- Collaborate with a small team of students and experienced developers.

Front-end web developer

December 2022 - Present

- Create prototypes using Figma to visualize design concepts and convert it thru code.
- Continuously enhance technical skills by building personal projects and exploring new technologies.

EDUCATION

Bachelor of Science in Computer Science, *University of Southern Mindanao*

Aug 2019 – June 2023

PROJECTS

Engineering Office Landing Page | Front-end Developer | [GitHub URL](#) | [Live URL](#)

A landing page of engineering office.

- Designed and developed the whole web application.

Loruki Platform | Front-end Developer | [GitHub URL](#) | [Live URL](#)

A clone of loruki platform landing page.

- Built the project to learn the figma and practice my front-end skills.

Manage | Front-end Developer | [GitHub URL](#) | [Live URL](#)

A manage landing page from front-end challenge.

- Make a solution to the challenges to enhance my front-end skills.
